New Arizona UM/UIM Form

Effective Thursday, February 20th, a new UM/UIM form will be in use in the state of Arizona. The new form will now allow for an insured to accept UM while still rejecting UIM. In addition, the form will list the applicable policy premiums for each coverage. For any policy where the Spanish language code is selected, the form will print in both Spanish and English. The English version is the legal version and is the required copy. The example section below highlights where the insured is required to sign if coverage is being rejected. Electronic Signature processes have been updated to accommodate this new form.
