

## **Attention Texas Agents**

### **Effective Immediately**

Given that the tropical storm forming in the gulf is expected to hit the Texas coastline in areas just Southwest of Houston, we have suspended binding Comp/Coll on any new vehicles or policies.

We are allowing reinstates and renewals at this point but will also suspend once this hits and require inspections on everything for an additional 48 hours after the storm subsides.

Most of the areas are saturated with rain and therefore the concerns are for additional flooding to occur.

**Thank you for your continued business!**

### **Questions?**
