

AUTOWATCH PROGRAM

We are pleased to announce the introduction of the American Access AutoWatch program. AutoWatch is an online collision repair tracking system that gives you and your policyholder the ability to view and track the progress of their repair.

To view a repair all you need to do is visit our website at www.americanaccessautowatch.com and login into the AutoWatch website using the policyholder's telephone number or claim number. We are confident that you and your policyholder will view the AutoWatch program as a valuable resource.

Any questions please contact the Claims Department at 630-645-7755.
